The screenshot shows a browser's developer tools error console with three listed errors:

- Error Missing space before doctype name.**  
At line 1, column 10  
`<!DOCTYPE> <html lang="e"`
- Error Nameless doctype.**  
At line 1, column 10  
`<!DOCTYPE <html lang="e"`
- Error Quirky doctype. Expected <!DOCTYPE html>.**  
From line 1, column 1; to line 1, column 10  
`<!DOCTYPE <html`

While the website displays everything properly. When validating the website, 3 errors are shown.

**Document checking completed. No errors or warnings to show.**

Used the HTML parser.

Total execution time 1 milliseconds.

An error occurred because the doctype element is not inputted correctly. To fix this error, we must name the doctype as `html lang='en'` which specifies the document language as English.
